*"Carrying Capacity" refers to the number of individuals that can be supported without degrading the natural, cultural, and social environment, i.e. without reducing the ability of the environment to sustain the desired quality of life of the long term.

December, 2011

Dear Activist:

Carrying Capacity Network continues to push for Real Solutions to our Nation's Problems.

First and foremost, we focus on stopping Mass Legal and Illegal Immigration.

With over 25 Million Americans unemployed or underemployed, we see NO Justification for:

- The USA's issuing 125,000 Work Visas each month to foreigners.
- Continuing a policy which allows low-skill immigrants to receive \$100 billion/yr in means-tested welfare, and hundreds of billions more in Education and Health-care subsidies.
- Allowing a situation in which 10 million of our own graduates in science, technology, engineering, and mathematics cannot find work in those fields (per CIS). Many of the 10 million are unemployed & underemployed, working in fields unrelated to their training.
- Allowing the Obama Administration to implement a Stealth Amnesty of most of the millions of Illegal Aliens in the USA. By its announced non-deportation policy, the Obama Administration has de facto legalized all illegal aliens except those convicted of committing felonies. Those who commit serious crimes are deported. But why wait until Americans have been victimized by alien invaders?
- If continued, the Stealth Amnesty will result in \$2.6 Trillion in extra spending in Social Security and Medicare alone (Rector, Heritage Foundation).
- Permitting 7 million Illegal Aliens to continue to hold jobs in the USA when many Americans cannot find work.

- The Obama Administration has been so careless about our National Security that they created the 'Fast and Furious' operation run through the ATF Bureau whereby thousands of high caliber weapons were transmitted to Mexican Drug Cartels. These guns were later implicated in the deaths of two of our Border Patrol agents (See Rep. D. Issa's Committee Report for details).
- The Obama Administration working to stop Arizona, Alabama, and other states from enforcing federal and State laws to stop Illegal Immigration. States have acted independently because of the Administration's own clear refusal or inability to enforce those laws or build the border fence for which Congress appropriated funds.

With over 40 Million(!) Immigrants in the USA in 2010 (U.S. Census Bureau) and about one million new legal and one million new illegal aliens, and their offspring added to our population each year. It is time to STOP Mass Legal and Illegal Immigration.

Zero-Net Immigration Moratorium

The Real Solution pushed by CCN and its ASAP! Coalition Allies is a zero-net-Immigration Moratorium (This would still allow about 150,000 Immigrants to enter the US each year to 'replace' those who leave).

Failing to push for a Moratorium sends the message that a continuation of Mass Immigration is OK, and that just a few changes are necessary.

Pushing for a Moratorium on legal immigration delegitimizes the whole concept of Mass Immigration.

Failing to push for a Moratorium facilitates illegal immigration, because it sends the message that Illegals are OK if they are just legalized.

So when pushing any other immigration reform bill it is essential to push for a Moratorium, first and foremost!

Unfortunately, well-intentioned individuals, and some groups, fail to push for a Moratorium.

Immigration Reduction, NOT Immigration Management

In failing to push for a moratorium they are, knowingly or not, pushing for a Mass Immigration Management Policy rather than a Mass Immigration Reduction policy. Such redirection of policy actually facilitates continued Mass Immigration.

Certain of these groups call merely for a "Suspension" of Mass Immigration or a "Time-Out". This sends the message that a continuation of Mass Immigration is OK and that all

we need to need to do is just have a temporary halt.

This is NOT the message we need to send to the politicians. We must send the clear Message that Mass Immigration must be stopped via a Moratorium.

CCN works against another negative impact of Mass Immigration as well.

American Culture, NOT Multi-Culturalism

Open Borders and leading NeoConservative Advocacy groups encourage Immigrants to preserve their own culture and language, and not to assimilate.

This is causing a Serious Threat to our National Unity and Social Cohesion, and risks Social Upheaval.

There is considerable evidence that the Proponents of Cultural Marxism are behind this Threat. Cultural Marxists also push for Politically Correct Speech rather than Free Speech and generally attack Western Civilization.

CCN has exposed and will continue to expose these threats to our Cultural Carrying Capacity. In particular, we encourage you to visit our website at www.carryingcapacity.org and to read the February 2010 posting, an article by William Lind and commentary "Cultural Marxism, A Threat to the USA?".

Nationalism and Internationalism versus Globalism

CCN and its allies have been working SUCCESSFULLY for years to stop the Globalists' attempts to dissolve the United States into a Regional State along with Mexico and Canada. The Globalists have pushed their Plan under various euphemisms, including 'North American Union'. And we expect they will continue this Stealth Initiative.

Fortunately, CCN and Allies have thus far stopped this push!

Consider the devastating effect entanglement with the Eurozone Regional Entity is having on the citizens of the European nations. The Eurozone Crises could happen here if the Globalists are allowed to have their way! Globalization is embroiling the United States in European troubles. The private for-profit Federal Reserve and Mega-Bank involvement in lending to the Eurozone PIIGS nations is threatening our own financial and national security.

CCN favors National Sovereignty, National Independence, and National Self-Reliance. Of course, such would allow International Cooperation and Trade on Fair Terms, but not the kind of Globalist merging of governance which has caused so much suffering for Europeans already.

Audit/Abolish The private for-profit Fed

CCN continues to favor auditing and then abolishing The Globalist Federal Reserve since it is a private for-profit Cartel of Mega Banks.

The one-time GAO Audit showed for example, that The Fed provided over \$3 Trillion in funding to European Banks. And further analysis indicates that multi billion dollar loans at as little as 1/100th of one percent interest were made to certain U.S. Mega Financial institutions. And the U.S. Taxpayer is ultimately on the hook for this largesse.

And The Fed has provided \$ hundreds of billions in Quantitative Easing which has mainly helped the Mega-Globalist Banks and done little or nothing for the Middle Class Taxpayer. But it has created harmful food and energy price inflation.

These Fed policies have adversely affected the USA's Budgetary and Financial Carrying Capacity. The U.S. Treasury could constitutionally perform the functions now performed by The Fed.

Resource Conservation

In a time of high unemployment and massive budget deficits, and a dramatic increase in the numbers of our own working poor, we need to conserve our own resources for our own people.

In this connection we believe we should dramatically reduce foreign aid and stop Military Adventurism overseas. Our Defense expenditures should be focused on defending the United States and not pursuing 'regime change' in a variety of foreign lands.

Our own porous borders provide an immeasurable threat to our national defense allowing, for example, easy entry for 'terrorists'. Defending the several thousand mile US borders by land and sea, and air defense, should be our first line of defense.

As a nonprofit organization CCN relies on you for activism and support. Donations are tax-deductible. All the best in the New Year!

Sincerely,

Carrying Capacity Network
