\*"Carrying Capacity" refers to the number of individuals that can be supported without degrading the natural, cultural, and social environment, i.e., without reducing the ability of the environment to sustain the desired quality of life of the long term.

December, 2012

Dear CCN Supporter,

Pressure is building for Congress to pass legislation early in 2013 which would irrevocably change the United States.

And most of the changes would be Negative. Of course, we refer to the stated post-Election Goal of leaders in both major political parties to pass a 'Comprehensive Immigration Reform' Bill **early** in 2013. Help CCN overcome the Threat!

The Threat is, 'Comprehensive Immigration Reform' means, to most of its proponents, to Open our Borders even wider to **legal**, as well as illegal, Mass Immigration ([www.huffingtonpost.com](http://www.huffingtonpost.com)). But the great Problem, is that immigration is already at record levels. The economic, environmental, and cultural carrying capacity of the United States has already been substantially exceeded.

We must, and will, resist this pressure, and, indeed push for Real Reform, i.e. Mass Immigration REDUCTION.

While the probability of achieving Reduction may seem low now, we think the chances of achieving it are fairly good, given that the Net Costs of Mass Immigration are so high, and in 2013 Congress and the Obama administration are going to be forced to look at all manner of cost cuts that have heretofore been off the table.

CCN intends to make it abundantly clear to them that Mass Immigration causes Multi-Billion Dollar Net Costs, and the way to Cut those costs is to dramatically Cut Legal and Illegal Immigration. Net costs refer to costs after subtracting all taxes that immigrants pay. The burdens are primarily State and local but also, increasingly, federal.

But in any event, regardless of the probability of actually achieving Reductions, we must push for them in order to diminish the likelihood of the politicians actually enacting increases! Legal and Illegal Immigrants and offspring **already** add 4 Million/yr to the U.S. Population.

CCN pushes for immigration reduction and other goals via:

- **Advocacy**
- **Mobilization** of Supporters
- **Lobbying**, and, quite important
- **Real News provision**, to surmount Key MainStream Media Distortions, Spin, News Manufacturing, and outright News Censorship

Consider the following Real News which all should use to inform and motivate the Politicians to reduce Mass Immigration.

Two thirds of the Jobs Created in the last four years in the USA have gone to legal and illegal Immigrants! ([www.cis.org](http://www.cis.org))

Legal Immigration is still increasing – Legal Immigrant Admissions increased nearly 28% in September, 2012 compared with September, 2011. (BloombergNews)

And consider that over a decade ago Rice University Economics Professor Don Huddle calculated that the NET (after subtracting taxes Immigrants pay) fiscal costs of Mass Immigration were \$93 Billion/Year. But today the NET Costs are much, much Higher, amounting to Hundreds of Billions/Year. The Child Tax Credit Refunds to Illegal Aliens alone amount to \$7 Billion per Year!!

And fully 36% of Immigrant-headed Households use at least one Major Welfare Program (primarily Food Assistance & Medicaid)! ([www.cis.org](http://www.cis.org))

Further, one in every five students in all public schools in the USA is from an immigrant-headed household ([www.cis.org](http://www.cis.org)). K-12 education and health care expenditures are the principal fiscal costs associated with mass immigration.

Consider that from January, 2009 to July, 2012:

- Foreign-born employment ROSE by 1.417 million, but
- Native-born employment FELL by 1.418 million! ([www.cis.org](http://www.cis.org))

Also, 53.6% of U.S. college graduates under the age of 25 are unemployed or underemployed. Unemployment rates for U.S. STEM (Science, Technology, Engineering, Mathematics) graduates are High as well:

- |                          |       |
|--------------------------|-------|
| - Information Systems    | 11.7% |
| - Computer Science       | 7.4%  |
| - Mechanical Engineering | 8.6%  |
| - Chemistry              | 6.6%  |

(Georgetown Univ. Study, "Hard Times..." 1/4/12)

And why is the U.S. admitting Millions of Immigrant workers when 1 in 3 young veterans are unemployed?!

So, with your help CCN will intensify its push to Reduce Mass Immigration!

Mass Immigration is not the only force changing the USA. CCN follows up on Cultural Carrying Capacity (per Garrett Hardin's 1986 essay) and a CCN focus initiated in 2010, with the following update.

Cultural Marxism (CM) is having a dramatic negative effect on the USA and other European-derived nations. Many have adopted self destructive CM-promoted policies, not only via encouraging Mass Immigration and discrimination against European-Americans, but also by supplanting Free Speech with Politically Correct Speech.

Inevitably, National Unity has been fractured by the divisive ethos of CM-promoted Multiculturalism that encourages self-identification by race or ethnic group.

Important: See CCN's February, 2010 posting "Cultural Marxism – A Threat to the USA?" at [www.carryingcapacity.org](http://www.carryingcapacity.org). Indeed, while Cultural Marxism "merely" seeks to impose Politically Correct Speech on Western Nations, Authoritarian Marxism Imposes Jail Time on "Speech Deviants."

CCN will continue to expose the influence of Cultural Marxism on the USA as for example in MainStream Media reporting, or lack thereof. Not only do Key MainStream Media suppress or spin the 'Real News' about Immigration, but also about discrimination against European-Americans at all levels including job and educational opportunity and even FBI reporting of crime statistics. For example, European-Americans have begun to be unconstitutionally charged with, **and imprisoned for**, "Hate Crimes' for Merely Symbolic Expression (i.e. Expression NOT coupled with any threat of Violence). See "'Hate Crimes' Washington's War Against White Working Class Dissent," Nicholas Stix, [vDare.com](http://vDare.com), 5/26/12.

One Main Trend flowing from Cultural Marxism is Systematic Discrimination against European-Americans in the U.S. and against European-derived people generally. If the suppression of Politically **Incorrect** Speech succeeds, the Losing "categories" are predictable. Losers-by-design are European-Americans".

CCN intends to continue to expose such Outrages both here and abroad. The Culturally Marxist-inspired culture that discriminates against European-Americans was a long time in building and reversal cannot come overnight. Keeping up the pressure and publicizing these incidents, (which the MSM refuses to do) is a critically important effort.

For so long as it continues, CCN will continue to expose instances of such discrimination.

Finally, one of CCN's Policy Initiatives already has Strong Bipartisan Support in Congress, the move to Audit The Fed. H.R. 459 has passed the House by a Huge margin: 327-98, with strong support from Left and Right, Democrats and Republicans.

Consider: That the private for-profit Fed policies seem mainly to benefit the Mega-Banks (some of whom are The Fed's shareholders). Even now – and certainly if extended into the future – charging Taxpayers "interest" on money that the Fed prints for free greatly exceeds the USA's Budgetary Carrying Capacity. And coming within the decade if current trends continue, estimates converge on approximately 25% of the US government budget going to pay interest on debt.

The essential First Step toward Change is to Audit The Fed.

But, MOST URGENTLY, reducing Mass Immigration will be our top legislative objective. State law is able to discourage the settlement of illegal aliens. But the legal immigration of more than 1.5 million annually must be addressed by Congress.

CCN advocates a zero-net immigration Moratorium. Merely advocating reductions in a few Categories (without simultaneously advocating a Moratorium) is counterproductive because it facilitates a continuation of Mass Immigration. It sends the "Message" that Mass Immigration is OK if we just reduce a few Categories. Indeed, one Mass Immigration Management Group falsely claimed that Comprehensive Immigration Reform Proponents were pushing only for an Illegal Alien Amnesty. NO! In fact they are also pushing for greatly increased Legal Immigration.

Supporters should continue to push their elected representatives and Mass Immigration Management groups to sponsor legislation that enacts such a zero-net Moratorium which would allow no more than about 150,000 immigrants annually.

Presenting the foregoing facts will help convince our Representatives.

To continue its work, CCN needs your Direct Support **NOW**. **The pressure to pass 'Comprehensive Immigration Reform' EARLY in 2013 is building!**
